# QUICKBOOKS SYNC

Sync Payment Data
to QuickBooks Online
Automatically.

Manually tracking sales data can become an accounting nightmare. With MX™ QuickBooks Sync, merchants can synchronize financial data from the MX™ Merchant payment platform to Intuit's QuickBooks Online tool. MX™ QuickBooks Sync automatically updates daily transaction data to QuickBooks Online, including all transactions, customer information, invoices and more!

AUTOMATIC UPDATES

MX™ QuickBooks Sync saves you countless hours of manual data input into QuickBooks Online. The following data will automatically carry over from any MX™ Merchant product, including: MX™ Invoice, MX™ Quickpay, MX™ Express, MX™ Retail, and any integrated countertop terminal:

- Customer Information
- Invoice
- Payment Data
- Historical Data
- Automatic Scheduling
